

OAK RIDGE HIGH SCHOOL

VISUAL ARTS

ART 1

Introductory course; includes the fundamentals of creating compositions, drawing, painting, art history, art appreciation, & aesthetic judgment. Projects will emphasize the elements & principles of design.

Prerequisite: none

3-D DESIGN

Introductory course; introduces composition design; the basic elements & principles of design involved with 2- and 3-dimensional art. Areas of study may include ceramics, collage, metalwork, stained glass, plaster, printmaking and other media.

Prerequisite: none

ART 2

(ADVANCED ART)

Extension of the skills & techniques developed in Art 1. Intended for students who wish to continue their studies of drawing, painting & art history. Projects will require the students to work & create at a more advanced level.

Prerequisite: Art 1 (B or better) & Permission

ADV. 3-D DESIGN

(CERAMICS)

Extension of the skills & techniques developed in 3-D Design. Intended for students who are serious about continuing to build their design skills using both 2- & 3-dimensional techniques. Projects will require the students to work & create at a more advanced level.

Prerequisite: 3-D Design (B or better) & Permission

DIGITAL IMAGING

A school-to-career course for the digital artist. Students will learn computer graphics applications, gain hands-on experience with field devices, & build on design foundations.

Prerequisite: Art 1 (B or better) + ICT & Permission

AP STUDIO ART

Designed for highly motivated students seriously committed to the study of art. Candidates are required to submit a portfolio of 24 artworks for evaluation and possible college credit at the end of the school year. AP classes require more time and commitment than most high school courses.

Prerequisite: Art 2 (B or better) & Permission
